

# summit

The Summit is a portable banner stand with a three-piece telescoping pole and spin-lock mechanism which allows for an adjustable mast and panel height up to 96". Just open the carrying case, put the unit on the floor, attach the graphic and adjust the height. Simply twist the spin-lock mechanism and slide the base collar up and down. No tools needed. 50w halogen spotlight and literature holders are available. All units are available in silver and black. The Summit can be a single or double-sided unit. Rigid Substrates with profiled graphics can be used on the Summit.

Summit with Rigid Substrate & Profiled Graphic
